Management's Responsibility For Financial Reporting

The accompanying consolidated financial statements for Tla'amin Nation (the "Nation") and all the information in this report are the responsibility of management and have been approved by the Tla'amin Government.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards. Financial statements are not precise since they include certain amounts based on estimates and judgements. When alternative accounting methods exist, management has chose those it deems most appropriate in the circumstances, in order to ensure that the consolidated financial statements are presented fairly, in all material respects, including the consolidated financial position of the Nation and the results of its consolidated operations and its consolidated cash flows.

The Nation maintains systems of internal accounting and administrative controls of high quality, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that the Nation's financial information is relevant, reliable and accurate and the Nation's assets are appropriately accounted for and adequately safeguarded.

The Tla'amin Government, represented by the elected Hegus and Legislators, are responsible for ensuring that management fulfils its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the consolidated financial statements. Hegus and Legislators meet periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting process, to satisfy themselves that each party is properly discharging their responsibilities, and to review the annual report, the consolidated financial statements, and the external auditors' report. Hegus and Legislators take this information into consideration when approving the consolidated financial statements for issuance to the Nation's citizens. In addition, Hegus and Legislators also consider the engagement of the Nation's external auditors.

The consolidated financial statements have been audited by Doane Grant Thornton LLP in accordance with Canadian generally accepted auditing standards on behalf of the Nation's citizens. Doane Grant Thornton LLP have full access to Hegus and Legislators.

Tla'amin Nation

Notes to the Consolidated Financial Statements

March 31, 2025

Tla'amin Nation (the "Nation") is an indigenous Coast Salish Nation located along the northern part of British Columbia's Sunshine Coast. The Nation is self-governing through a treaty settlement (the "Tla'amin Final Agreement") between the Nation and the Governments of Canada and British Columbia. The Tla'amin Government is represented by an elected Hecus and Legislators and is the governing and taxation authority for the Nation.

The Tla'amin Final Agreement, a treaty and land claims agreement between the Nation and the Governments of Canada and British Columbia, became effective April 5, 2016. The Tla'amin Final Agreement constituted a full and final settlement with respect to the Tla'amin Nation's aboriginal rights, including aboriginal title, in Canada

1. Basis of presentation and significant accounting policies

These consolidated financial statements include the assets, liabilities, and results of operations of the Nation and all related entities and organizations subject to its control. No inclusion has been made of assets, liabilities, revenue, or expenses of the Nation's citizens, individually or collectively, incorporated or unincorporated, that are not controlled by or are the responsibility of the Nation.

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles for governments, as established by the Canadian Public Sector Accounting Board ("PSAB"), which encompasses the following significant accounting policies.

Fund accounting:

The Nation uses fund accounting procedures, which results in a self-balancing set of accounts for each fund established by legal, contractual, or voluntary actions. The various funds have been consolidated for presentation in the consolidated financial statements.

Reporting entity and basis of consolidation and partnerships:

The Nation's reporting entity includes the Tla'amin Nation and all related entities, which are accountable for the administration of their financial affairs and resources to the Nation, and are either owned or controlled by the Nation. The Qames ?ems Tala Settlement Trust is not owned or controlled by the Nation and is not consolidated in these financial statements.

i) Investment in government business enterprises and partnerships:

The Nation records its investments in government business enterprises (GBE) and government business partnerships (GBP) on a modified equity basis. Under the modified equity basis, the GBE's and GBP's accounting policies are not adjusted to conform with those of the Nation and inter-organizational transactions and balances are not eliminated. The Nation recognizes its equity interest in the annual earnings or loss of the GBE's and GBP's in its consolidated statement of operations with a corresponding increase or decrease in its investment asset account. Any dividends or other cash distributions that the Nation may receive from the GBE's and GBP's will be reflected as deductions in the investment asset account.

The Nation's government business enterprises investments consist of the following:

Tla'amin Holdings Inc. – 100% interest

The Nation's government business partnership investments consist of the following:

Tla'amin Holdings Limited Partnership – 99.99% interest

ii) Investments

Investments in entities in which the Nation does not control individually or jointly are recorded at acquisition cost. If there has been an other than temporary decline in the value of an investment, the investment is written down to its net realizable value. Investments in entities in which the Nation does not control but has joint control or significant influence in operations are accounted for, similar to government business partnerships, using the modified equity method.

Cash and cash equivalents

Cash and cash equivalents includes cash and investments in highly liquid money market funds, readily convertible to known amounts of cash.

Tangible capital assets

Tangible capital assets are recorded at cost, less accumulated amortization. Cost includes all costs directly attributable to acquisition or construction of the tangible capital asset including transportation costs, installation costs, design and engineering fees, legal fees and site preparation costs. Contributed tangible capital assets are recorded at fair value at the time of the donation with a corresponding amount recorded as revenue. Tangible capital assets under construction are not amortized until the asset is available for use.

Tangible capital assets are amortized annually over their expected useful lives using the declining balance or straight-line method at the following rates:

Asset	Method	Rate
Buildings and improvements	Declining balance and straight-line	4-20%
Infrastructure	Declining balance	4%
Equipment	Declining balance and straight-line	10-100%

When management determines that a tangible capital asset no longer contributes to the Nation's ability to provide goods and services or that the value of future benefits associated with the tangible capital asset is less than its net book value, the cost of the tangible capital asset is written down to its net recoverable amount.

All intangible assets and items inherited by right of the Nation, such as lands, forests, water, natural resources and cultural and historic assets, are not recognized in the Nation's consolidated financial statements.

Settlement lands to which no acquisition costs is attributable have not been assigned any value in the consolidated financial statements.

1. Basis of presentation and significant accounting policies (continued)

Revenue recognition

Government transfers and grant revenue are recognized as the Nation becomes entitled to the funding under the terms of applicable funding agreements and is recorded in the period in which the resources are used for the purpose specified in the agreements. Restricted funding received for which eligibility criteria have not been met or which has stipulations that give rise to an obligation are reported as deferred revenue until the resources are used for the purpose or purposes specified and/or the stipulations giving rise to an obligation have been met.

In connection with the Tla'amin Final Agreement, the Nation receives an annual capital transfer over a 10 year period. The annual capital transfer payment is transferred to the Qames ?ems Tala Settlement Trust.

Rental, lease and interest revenue is recognized on a monthly basis as income is earned and when collection is reasonably assured. Property and other tax revenue are recognized, net of applicable homeowner grants, at the time the taxes are levied.

Revenue from logging, sales of goods and provision of service, fishing licenses and other sources are recognized in the period the goods or services are provided and the related proceeds are received or receivable.

The Nation accounts for revenue received from contractual agreements, such as resource royalties, certain grants and other government transfers in the year the proceeds are received or the proceeds are considered receivable, any prescribed services are performed and the amount can be reasonably estimated.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of financial and non-financial assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Areas requiring management estimates include the collectability of accounts receivable, the collectability of investments and investments in government business enterprises and partnerships and the useful lives tangible capital assets. Management reviews these estimates on a periodic basis and at least annually. Where necessary, management makes adjustments to these estimates prospectively.

Contaminated site liabilities

Contaminated sites are a result of contamination being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds an environmental standard. A liability for remediation of contaminated sites is recognized when an environmental standard exists, contamination exceeds the environmental standard, the Nation is directly responsible and accepts responsibility, future economic benefits will be given up and a reasonable estimate can be made. The liability includes all costs directly attributable to remediation activities including post remediation operations, maintenance and monitoring. Any expected recoveries from other parties, including other governments, are recorded as a reduction of the liability. As of March 31, 2025, the Nation did not have any significant or measurable contaminated site liabilities.

Asset retirement obligations

An asset retirement obligation is recognized when there is a legal obligation to incur retirement costs in relation to a tangible capital asset, the transaction giving rise to the obligation has occurred, cash or other economic benefits are expected to be given up in the future and a reasonable estimate of the obligation can be made. As of March 31, 2025 the Nation did not have any significant asset retirement obligations.

Financial Instruments

The Nation considers any contract creating a financial asset, liability or equity instrument as a financial instrument, except in certain limited circumstances. The Nation accounts for the following as financial instruments:

- Cash and cash equivalents
- Restricted cash, cash equivalents, and investments
- Accounts receivable
- Due from related parties
- Accounts payable and accrued liabilities
- Deferred revenue
- Term debt

Financial instruments in arm's length transactions

Initial measurement

The Nation initially measures financial assets and financial liabilities originating, acquired, issued or assumed in arm's length transactions at fair value.

Subsequent measurement

The Nation subsequently measures its financial assets and financial liabilities at amortized cost less any reduction for impairment.

Derecognition

The Nation removes financial liabilities, or a portion of, when the obligation is discharged, cancelled or expires.

Impairment

Financial assets measured at cost or amortized cost are tested for impairment when indicators of impairment exist at the end of the reporting period. Previously recognized impairment losses are reversed to the extent of the improvement provided in the financial asset is not carried at an amount, at the date of the reversal, greater than the amount that would have been the carrying amount had no impairment loss been recognized previously. The amounts of any write-downs or reversals are recognized in net income.

1. Basis of presentation and significant accounting policies (continued)

Budget data

The budget data presented in the consolidated financial statements have been derived from the budget approved by Hegus and Legislators on March 27, 2024.

Segmented disclosure

A segment is defined as a distinguishable activity or group of activities of a government for which it is appropriate to separately report financial information to achieve the objective of the standard. The Nation has determined the most appropriate basis for classifying segments is by program. Segmented disclosures are provided in Note 14 and Schedule 3 to these consolidated financial statements.

2. Restricted cash, cash equivalents and investments

The Nation maintains its cash balances in several institutions in British Columbia. The Canada Deposit Insurance Corporation ("CDIC") insures each of these accounts up to \$100,000. The aggregate funds held in each institution may exceed the CDIC insured limit from time to time and specific funds held by each institution may not be covered by CDIC insurance. Management does not anticipate any material effect on the consolidated financial position of the Nation as a result of these concentrations.

Certain cash, cash equivalents and investments have been internally restricted by the Nation of the following specific purposes. Restricted cash, cash equivalents and investments include cash and cash equivalents (with interest rates at 3.25%) term deposits and guaranteed investment certificates (with interest rates from 3.60% to 5.75%) and portfolio investments that are quoted in an active market.

	2025	2024
Cash and cash equivalents	\$ 20,504,107	\$ 20,547,672
Term deposits and guaranteed investment certificates	13,989,307	20,426,609

BCFN Gaming Revenue General Partner Inc. ("BCFN GR GP"), shares at cost	10	10
	2,609,468	2,384,601

The Nation's investments in SSFLP and SSF consists of a 33% limited partnership interest in SSFLP and a 33% beneficial interest in one common share of SSF. The Nation does not control SSFLP's and SSF's operations or assets. Accordingly, the Nation measures its limited partnership investment in SSFLP using the equity method, with the Nation's interest adjusted each year for its share of limited partnership earnings or loss and for any distributions to or from the limited partnership earnings or loss and for any distributions to or from the limited partnership, and its share investment in SSF using the cost method. Total investment revenue for the year ended March 31, 2025 from the Nation's investment in SSFLP total \$224,867 (2024 - \$98,252).

The Nation's investment in BCFN GR LP consists of a limited partnership interest, by way of a \$100 capital contribution, and its investment in BCFN GR GP consists of shares in the general partner corporation. As the Nation, through its investments, does not control or jointly control either entity, its investments are measured using the cost method. Other revenue includes \$550,618 (2024 - \$683,177) of gaming revenue sharing contributions.

5. Investments in business enterprises (continued)

(a) Government business enterprises (GBE):

The Nation's investment in wholly-owned incorporated entities is summarized below

	2025	2024
TH:		
Investments in shares at cost	1	1
Accumulated equity in earnings	4,037	2,745
	4,038	2,746

TH:

TH is the general partner in THLP, and was formed to serve as the Nation's primary investment interest in its government business operations.

The fiscal year end of TH is December 31 and the financial information provided in note 5 is at and for the period ended December 31, 2024, with comparative information for the year ended December 31, 2023. There were no material changes in TH's operations from their fiscal year end date to March 31, 2025.

Financial information for TH, as at December 31, 2024 is summarized below:

	2024	2023
Balance sheet information		
Assets	4,037	2,476

5. Investments in business enterprises (continued)

The fiscal year end of THLP is December 31, and the financial information provided in Note 5 is at and for the year ended December 31, 2024, with comparative information for the year ended December 31, 2023. There were no material changes in THLP's operations from their fiscal year end date to March 31, 2025

Financial information for THLP, as at December 31, 2024 and 2023, is summarized below:

	2024	2023
Balance sheet information		
Assets	89,554,931	77,039,092
Liabilities - external debt	-	73,726
Liabilities - other	21,057,231	21,378,078
Partners' equity	68,497,700	55,587,288
Results of operations		
Revenue	31,494,707	30,756,245
Expenses	22,704,503	16,879,835
Other income (loss)	3,450,531	3,063,060
Earnings (loss)	12,240,735	16,607,295

The Nation owns 100% of the partnership units in Tla'amin Holdings Limited Partnership (THLP) and 100% of the shares in Tla'amin Holdings Inc., its general partner. The Nation accounts for its investment in THLP using the modified equity method under PSAS.

In 2022, THLP adopted ASPE and, on transition, recorded a fair value adjustment ("FMV bump") to a revenue-generating property. This adjustment increased THLP's equity but was recognized directly in partners' equity rather than through net income. Under PSAS, such adjustments are not recognized by the investor because they do not flow through the investee's income statement.

As a result, the Nation's reported investment in THLP differs from the total equity reported in THLP. The difference reflects the FMV bump recorded under ASPE and represents a reconciling item that is not recognized unless realized through the investee's net income.

13. Financial Instruments

Transactions in financial instruments may result in an entity assuming or transferring to another party one or more of the financial risks described below. The required disclosures provide information that assists users of financial statements in assessing the extent of risk related to financial instruments.

(a) Credit risk:

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in a financial loss. The Nation is exposed to credit risk with respect to its cash and cash equivalents, restricted cash and cash equivalents and investments, and accounts receivable. Credit risk related to cash and cash equivalents and restricted cash and cash equivalents and investments is mitigated as amounts are held with major Canadian financial institutions. Credit risk related to accounts receivable is mitigated as the Nation enters into credit agreements with credit worthy counterparts.

(b) Liquidity risk:

Liquidity risk is the risk that the Nation will not be able to meet its financial obligations as they become due. The Nation monitors the maturity of its financial liabilities and assess whether it has sufficient cash to settle these financial obligations when due. The Nation is subject to non-financial covenants and restrictions in relation to its long-term debt (Note 7), for the year ended March 31, 2025, the Nation was not in compliance with its annual financial reporting requirement.

(c) Interest rate and cash flow risk:

Interest rate risk relates to the impact of changes in interest rates on the Nation's future cash inflows from its investments and future cash outflows on its term debt. The Nation's cash and cash equivalents are held in cash or short term money market instruments; accordingly, the Nation is not subject to significant interest rate risk in regards to these financial assets.

The Nation is subject to interest rate and cash flow risk with respect to its term debt, as disclosed in Note 7. The Nation manages interest rate risk through negotiations with lenders at origination or renewal of loan agreements. There has been no significant change in the Nation's interest rate and cash flow risk in 2025.

(d) Concentration of revenue:

The Nation receives a significant portion of its revenue each year through government transfers pursuant to funding agreements with Indigenous Services Canada, the Province of British Columbia and other federal and provincial government funding agencies. Any disruption in this funding could have a negative effect on the Nation's operations.
